

License Agreement

on the Use of Data from Planet Labs Germany GmbH

between

**of the German Aerospace Center acting as the German
Space Agency (Deutsches Zentrum für Luft- und Raumfahrt
e.V. or DLR)**

(hereinafter referred to as "DLR RFA" or "Licensor")

and

the User of the Mission Data

(hereinafter referred to as "User" or "Licensee")

This License Agreement for Scientific Use between the Licensee and the Licensor forms the basis on which Mission Data is delivered to the Licensee. The Licensee is informed that this License Agreement is a sublicense to the License Agreement between Planet Labs Germany GmbH and DLR RFA.

A. Definitions

"DLR RFA" and "Licensor" is the "The German Aerospace Center acting as the German Space Agency (Deutsches Zentrum für Luft- und Raumfahrt e.V. or DLR),."

"Mission Data" means data that originates from the satellites "PlanetScope" and "RapidEye" of the US company "Planet Labs PBC" and that the Licensor makes available to the Licensee.

"Value Added Product" means any product or component of a product (including a reasonable copy true to original thereof) that is created by the Licensee or its Collaboration Partner by modifying the Mission Data through advanced processing, technical modifications and/or integration of additional data and that irreversibly alters the Mission Data.

"Licensee" means a natural or legal person or other entity that concludes this binding license agreement with the Licensor for the acquisition of Mission Data for Scientific Use. Eligible Licensees are universities and colleges, federal and state research and development institutions, other federal and state authorities exclusively for specific research purposes, grant and funding allocation recipients of DLR RFA research projects exclusively for the funded project purposes and commercial "start-ups", in each case in Germany, which use the Mission Data exclusively for Scientific Use.

"Collaboration Partner" (of the Licensee) means a partner of the Licensee with whom the Licensee concludes a binding user agreement for the receipt of Mission Data for Scientific Use. Authorized Collaboration Partners are research institutions worldwide (e.g. universities, federal and state research institutions) that use the Mission Data exclusively for Scientific Use in research projects under the project management (coordinator) of the German Licensee.

"Scientific Use" is the use of Mission Data by the Licensee in approved projects for research and development purposes, including teaching. External (e.g. public) use is only permitted for the publication of scientific results. The Mission Data and any Value Added Products may not be published. However, the license covers the use for demonstration purposes for non-commercial use, e.g. as part of international and national programs to support the Paris Climate Agreement and the international Sustainable Development Goals - in the following sense: A (temporary) live presentation of the Mission Data or Value Added Products for pure demonstration purposes is possible on site or online, provided that no Mission Data (or products from which the Mission Data can be derived) are provided to the participants, in particular no handover of the data, no possibility of downloading, etc. .

B. License granted and permitted use

Subject to acceptance of and compliance with the terms of this License, the Licensor grants the Licensee a non-exclusive, royalty-free, transferable right to use Mission Data for the purposes of Scientific Use in accordance with the application.

The Licensee may:

- B.1 copy, use, modify or change Mission Data internally for Scientific Use;
- B.2 distribute Mission Data and Value Added Products for Scientific Use to Collaboration Partners as requested;
- B.3 only publish the scientific results of the Scientific Use. The Mission Data and any Value Added Products may not be published.

The Licensee may not:

- B.4 use Mission Data for any purpose other than that expressly permitted in this license agreement and outside the scope of the project specified in the application;
- B.5 reproduce Mission Data elsewhere;
- B.6 change or remove a copyright or ownership notice in or on Mission Data.
- B.7 allow the Mission Data to be shared by the Collaboration Partner outside the collaboration project specified in the application.

C. Responsibilities

- C.1 The Licensee may only use the Mission Data for the project specified in the application and approved by the Licensor. The Licensee must notify the Licensor in writing within one month of any changes to the data specified in the application that occur during the project. This includes, in particular, project-related data and data related to the Collaboration Partners.
- C.2 The Licensee must observe any export restrictions and obtain the necessary official approvals; in particular, Collaboration Partners must have passed the sanctions list check before receiving the Mission Data.
- C.3 The Licensee/his or her representative is responsible for compliance with the provisions of this license agreement and for the use of the Mission Data in accordance with the application (including use by Collaboration Partners). The approved data quota is tied to the person of the Licensee/representative. A final report must be submitted at the end of the project at the request of the Licensor.
- C.4 At the request of the Licensor, the Licensee must provide proof (if necessary also to Planet Labs Germany GmbH) that the Licensee is properly using the Mission Data provided for the purposes of the project outlined in the application (the same applies to the Licensee's Collaboration Partners).
- C.5 The Licensee shall inform the Licensor immediately in the event of problems with Mission Data access or data quality.
- C.6 The Licensee publishes the results of its work in national and international media and presents them in suitable workshops.
- C.7 Licensee agrees to make every reasonable effort to protect the Mission Data and Value Added Products, or any part thereof, from unauthorized a) use, b) redistribution, c) disclosure, publication.

D. Ownership and publication rights

- D.1 The Mission Data are the property of "Planet Labs Germany GmbH" and are protected by German law as well as by corresponding international laws, agreements and conventions for the protection of intellectual property or property rights.
- D.2 Any digital or analog publication resulting from work with the Mission Data or Value Added Products must be preceded by the following sentence: "Data provided by the German Aerospace Center acting as the German Space Agency, based on Planet Labs data".

E. Liability and warranty

- E.1 The Licensor assumes no liability for the data provided, in particular not for its completeness, quality, up-to-dateness, freedom from defects, suitability for a specific purpose or freedom from third-party rights.
- E.2 The Licensee acknowledges and agrees that neither the Licensor nor its employees shall be liable for any loss or damage arising from the provision of the Mission Data by the Licensor under this Agreement or the use of the Mission Data by the Licensee or its employees. This does not apply to liability for damages resulting from injury to life, body or health, or for damages based on a cardinal breach of duty by the Licensor or an intentional or grossly negligent breach of duty by the Licensor.

F. Contract term and termination

- F.1 The contracting parties may terminate this agreement in writing with a notice period of three months without stating reasons. The parties may terminate this agreement in writing with immediate effect for good cause. Good cause shall be deemed to exist in particular if one of the parties breaches the provisions of this license agreement.
- F.2 In the event of termination, the Licensee undertakes to delete the data as far as possible.

G. Applicable law

This license is subject to the law of the Federal Republic of Germany. The place of performance and exclusive place of jurisdiction for all disputes arising from this license agreement is Bonn, insofar as legally permissible.
